Volta Series

The perfect pouch for consumers with modern tastes for all things digital

The Volta pouch series is designed for consumers with a preference for modern style. Its streamlined profile and smooth finish offers a touch of luxury – without the luxurious price point. Crafted of thick molded foam, it protects compact cameras, smartphones, MP3 players and in the largest model, Volta 30, a GPS unit. An interior slip pocket is designed to store a battery or memory card.

The Volta pouch is lined with soft tricot to protect LCD screens and lenses from scratches and dust. Smooth-operating dual zippers provide easy access, plus security. The integrated belt loop offers an additional carrying option.

Volta 10 and 30 are available in Silver, Black and Red; Volta 20 is available in Black only.

Features/benefits

- Molded EVA foam construction ▶ provides a firm shell that protects contents from bumps and abrasion
- Soft tricot lining ▶ protects LCD screen and lenses from scratches and dust
- Dual-zipper closure ▶ offers easy access, plus security
- Interior slip pocket ▶ stores a battery, memory card, mini headphones
- Integrated belt loop ▶ offers an additional carrying option
